mobi

Changing the way you commute.

ABOUT MOBI

Mobi is a carpooling application that allows neighbours and colleagues the ability to carpool to work or university. The app is scheduled to be released on IOS and android phones.

Mobi completely facilitates the ability for riders and drivers to connect with each other and plan their whole weeks worth of commutes all through their smartphone.
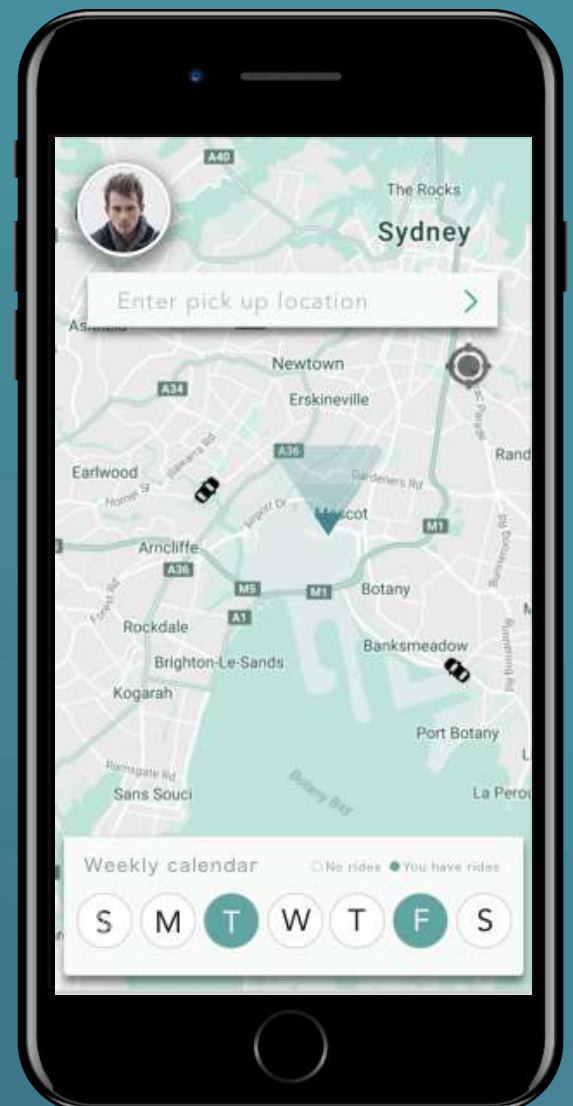

FEATURES AND BENEFITS

FEATURES

- Integrated chat platform for rider and driver to connect before the ride.
- Payment facilitation through the app for convenience.
- GPS mapping and notification for the driver and rider.
- Weekly calendar for users to keep track of booked rides.
- Carbon emissions tally showing how much users have offset Co2 emissions.

BENEFITS

- A new alternative to traditional commuting methods.
- The ability to network with colleagues and neighbours.
- Ability to track your routes and upcoming trips to plan your weekly commute.
